A. Champagne, the tailor, begs to inform the public that our clothes must fit or we keep them. We don't make "cheap clothes," but we make "good clothes cheap." Inspection invited.

S. Campbell is getting along satisfactorily with the contract at the Lowell shaft, which is now down 900 feet. A fine body of ore is in sight running high in copper and carbonates. A percentage of 27 1/2 copper is being shown and the lead carbonates are also rich.

Mr. Meade, of the cattle firm of Meade & Short, the Southwestern Cattle Co., who left for California a few days ago, is attending to the development of a very rich claim discovered on his land in Sonora. The shaft is forty feet down with a six foot square shaft, and the walls of the ore body have not been touched as yet. Assays have been made by Clarke & Mitchell and others showing 30 and 40 per cent copper with black oxide of manganese, red iron and sulphides. The mine is attracting much attention and it is probably the biggest proposition in Sonora.

Attention, Good Dressers!

I am the agent for several eastern tailoring establishments, and can furnish you first class clothing at prices that cannot be beat.

First of the New Goods

The Dry Goods Department will take on an added interest from now on, with the new goods beginning to arrive. The first installment is just in, just a small little lot, but its like the first zephyr that precedes the whirlwind. If the prettiness of this first lot is an inkling of what is to follow, then it will not be long before there will be a perfect fiesta of prettiness and daintiness in the Dry Goods section of ours. Come and see these new fixings for women folks while they are new and here, for they are too enticing to remain here long.

Fichus the Vogue

Dame Fashion has delved way back to the time of our grand parents and brought out Fichus and decreed that they are proper. In this instance Dame Fashion's decree will be eagerly obeyed, for these have all the quaintness and breath of ye olden time about them, and the added charm of twentieth century daintiness. We should apologize to the Fichus for this attempt at description, but read: Of silk chiffon, with accordion pleated ruffles, double ruffles, in fact, all kinds of indescribable ruffles, WHITE and BLACK **\$1.25 to 4.50**

Of bobinett with ruffles of same goods or lace **35c to 1.50**

New Belts

You've no idea what a wealth of style and "difference" is meant by that word "new." There're belts and belts, but prettier belts than these we haven't seen. Black velvet with white polka dots, black velvet edged with gold braid—gold braid is going to be very much in evidence this season—black velvet with three rows of gold braid, black silk corded belts, white silk corded belts, all with rings and ribbons. The pulley belt was too good an idea to be downed in one season. You may choose at **75c**
